Tech Whips Tufts in Last Home Game Before 1800; 61-52

Forkey High Man With 19 Points; Rushton Has 17

Surge by Jumbos Falls Short Despite Starring Of Weldon and Tibbs

Worcester Tech maintained its rating as one of the three best teams in New England by downing Tufts Saturday night, 61-52, in one of the most thrilling games ever seen in the Alumni Gymnasium this season.

The Engineers managed to maintain a safe lead most of the game, but in the last ten minutes Tibbs and Weldon of Tufts unleashed an attack that nearly swept Tech off the floor, closing

Acting Captain Dave McEwan of Little Falls, N. Y., above, who climaxed a brilliant basketball campaign in his final home game against Tufts last Saturday.

the lead to only one point. However, after a short rest, the Boynton Hillers tightened up and took charge of things, managing to build up a comfortable lead again before the game ended.

Ray Forkey, Tech's "Dead-Eye Dick," started things off with a bang by a shot from under the basket. Tufts retaliated with a nice basket by Jenkins, but the minute Tech got back down the floor, Forkey let fly one of his long, looping, "swishers" giving the Engineers the lead again, which they kept throughout the remainder of the game. The rest of the first half was a duel between Weldon, captain of the Tufts team, and Forkey, each dropping five

E. T. Parsons of G. E. Speaks at A.I.E.E. Meeting

Discusses Newly Developed Wound Core Transformer

Mr. E. T. Parsons, W. P. I. '27, and transformer specialist for New England General Electric, was the guest speaker at the meeting of the student branch of A.I.E.E. held Tuesday night, February 28, in Sanford-Riley Hall.

Mr. Parsons divided his talk into two main topics. He first told about the newly developed wound core transformer which marked the only major change in transformers since their invention. The second part of his talk concerned the development of the induction regulator, and the display of full size pictures of the regulators.

After a few words of explanation Mr. Parsons showed motion pictures of the development of the transformer. These pictures began with the invention of the first crude transformer in Great Barrington, Connecticut, and carried through the entire story of its development up until today. The picture showed clearly the desirable properties of the core, and the processes for making the core.

After the pictures, Mr. Parsons demonstrated how the wire was wound on the core, using a model core. A scale model of the finished product was then displayed.

The speaker explained the purpose and range of the induction regulators, and pointed out the essential parts and special features of the many sizes shown.

William R. Ahern of Worcester, presiding chairman, announced that the next meeting would be held Tuesday, March 14, when Mr. Harry Carson will tell of the hurricane and flood damage in the vicinity of Providence.

Following the meeting, the 60 student and business members present examined the displayed instruments and questioned the speaker on their manufacture and use.

Freshman Debating Society in Meet

The second of the W. P. I. Debating Society's Freshman debates was held last Friday night when a Tech Freshman team debated a team from New Bedford Textile Institute on the desirability of an Anglo-American alliance. Haskell Ginns and Herbert Goodman, both of Worcester, debated for W. P. I. No decision was delivered.

The next debate on the Society's program will be a contest with M. I. T. in the middle of April. It will be a varsity debate on a humorous subject. Notice of the next regular meeting will be posted shortly.

Wellesley and Tech To Present Joint Program

Musical Clubs to Hold Concert For Benefit of W.C.A.A.

The Worcester Tech Glee Club will join the Wellesley Women's Choir in a concert and dance at the Bancroft Hotel Ballroom next Thursday evening, March 9, at 8:15 P. M. The presentation of this program is under the auspices of the Worcester County Alumni Association for the benefit of its scholarship fund, of which George Andreopolous, '41, is the present recipient.

The program will be opened with the two groups singing together. Each group will then sing separately. Following this the Wellesley Madrigal Club will then gather around a table and present a group of old English songs. The Tech Quartet will follow up with one of their entertaining presentations of songs for male voices.

Some of the presentations of the Tech Glee Club will be Bartholomew's spirituals, "Keep in the Middle of the Road" and "Dixie," and three Gilbert and Sullivan selections, "March of Peers" from "Iolanthe," "Hail Poetry" from "The Pirates of Penzance" and the Finale from "Iolanthe."

Dancing will follow the combined program with music by the Boyntonians. Tech students are urged to attend.

(Continued on Page 4, Col. 3)

Senior M.E.'s To Have Lab. Dance

Victrola Amplifying System to Provide Music For Students

The first of a series of social functions planned by the Senior M.E.'s will be a dance this Friday, March 10, at the Alden Hydraulic Laboratory at Holden. Scheduled from 8:00 P. M. to 1:00 A. M. the dance is exclusively for senior members of the Mechanical Engineering Department.

Included in plans for the future is a second annual "Splash" party following the same general style as that of last year which proved to be a great success as a "social" or "anti-social" function.

(Continued on Page 2, Col. 2)

April 11 Set As Date For Annual Tech Banquet

Plans are now in progress for the Annual Tech Banquet which is to be held in Sanford Riley Hall on April 11. The committee under the supervision of John G. Hollick of West Hartford, Conn., is looking forward to one hundred per cent attendance by faculty members and students. Details of the banquet will appear in a later issue of the NEWS.

(Continued on Page 2, Col. 5)

Dr. Edward Krehbiel To Speak At Fuller Lecture Friday

Tech To Aid in "Health Week"

Two Assemblies To Be Held On Campus During Week

This week, March 4th to 11th, the City of Worcester is observing a First Worcester Health Week. Sponsored by the city's Health Education committee, the program includes newspaper articles, posters, window displays, radio announcements, and various programs at the schools and colleges in the city.

Tech will cooperate with two assemblies during the week. On Thursday, March 9, at 11 A. M., Mr. Wm. Brierly of the Clark Faculty will speak in the E. E. lecture room on "Geographical Factors in the Cause and Spread of Disease." This is the regular physical education lecture hour for the Freshman class. They will be required to attend, but Prof. Carpenter has announced that any who are interested are welcome to sit in. Mr. Brierly is a recent graduate of Clark, now a graduate student working for his doctorate, and a member of their faculty. As an undergraduate, he was a basketball star for Clark, very popular in the city and here on Boynton Hill.

The second assembly will be in the E. E. lecture room on Friday, March 10, at 4:15 P. M. This program will be two motion pictures with sound, "Eyes of the World" and "Marvel of Vision." "Eyes of the World" is a new slide film lecture, featuring Dr. Ray Chapman Andrews, Director of the American Museum of Natural History. The film tells a fascinating story of the eyes of all of nature. There are 99 technicolor shots in the film. "Marvel of Vision" is recorded by Floyd Gibbons, and has been seen by members of the faculty at scientific meetings. They recommend it highly.

CALENDAR

- Tues., Mar. 7—
4:15 P. M. S 28 Physics Colloquium Report on Amer. Physical Society meetings in New York by Dr. Richard A. Beth.
8:00 P. M. Basketball—Tech vs. R.I. State at Kingston, R.I.
- Thur., Mar. 9—
8:15 P. M. Wellesley-W. P. I. Glee Club Concert and Dance Hotel Bancroft.
- Fri., Mar. 10—
8:00 P. M. Senior M.E. Dance, Alden Hydraulic Laboratory.

- Coming: April 11—Tech Banquet.

Subject of Talk To Be The "150 Year Cycle"

Will Discuss Changes in Government Over Period of Years

Dr. Edward Krehbiel has been chosen as the speaker for the next Fuller Lecture which is to be held on Friday, March 10, at 11 A. M. He will speak on the "150 Year Cycle." His topic is concerned with the changes in government at regular century and a half intervals. Development of this subject at other gatherings has recommended him highly as the proper selection for this assembly.

Dr. Krehbiel is well acquainted with his topic, having spent part of his life as Professor of European History and because of his active interest in world affairs. He received his Bachelor of Arts degree from the University of Kansas, studied at Harvard and Ecole des Chartes in Paris. He obtained his Doctor of Philosophy award from the University of Chicago. Dr. Krehbiel acted as United States Food Administrator for California in 1918. Since then he has been in the merchandise business, becoming general manager and treasurer of Gorham, Inc. in 1929. His fraternities are Phi Beta Kappa and Phi Gamma Delta. Other affiliations are with the City Club of New York, New York Advertising Club, and Century Club. The speaker has also written several books, among which are "The Interdict," "Syllabus of Lectures on International Conciliation," and "Nationalism, War and Society."

Newman Club to Meet Tuesday

Open Splash Party to Be Held in Pool On March 17

The Newman Club has a busy schedule slated for the coming week. On Tuesday, March 14, the regular monthly meeting will be held at 7:30 P. M. in Sanford Riley Hall. The Reverend Father Malumphy of the Immaculate Conception Church will address the group.

On Friday, March 17, a splash party will be held in the Fuller Pool at Alumni Gymnasium. This promises to be a lively time and all students at Tech are invited to attend. A schedule of swimming events and water sports will be in order. General admission will be seventy-five cents per couple.

Sunday, March 19, marks the day of the annual Communion Breakfast. Mass and Communion will be held at 9:00 A. M. at the Immaculate Conception Church. Breakfast will be enjoyed at Putnam and Thurston's Restaurant at ten o'clock. The usual capacity turnout is expected for this event.

This Being An Editor

There seems to come a time in the term of every editor when he would rather mention a series of more or less consequential matters in a rambling manner than compose a strictly coherent so-called editorial. Since this is the last chance before a new staff takes over the publication of this college weekly, we choose to ramble.

With the completion of the home games of the 1938-39 basketball campaign, we highly commend those members of the faculty who have loyally followed the team in its weekly Saturday night engagements in Alumni gymnasium. To that smaller group of the faculty who appear at most of the "away" games goes even higher commendation. We are proud of the fact that our faculty does follow such activities. Significantly enough, that same group who attend the games are the ones whom the students regard as "regular fellows." We fail to see how any instructor can proudly boast that he has not witnessed a basketball game for some time. Incidentally, the greeting which was accorded one of the professors last Saturday was entirely uncalled for, ungentlemanly and most certainly out of place.

Several complaints and personal experiences point to the fact that it is often difficult to secure a clean towel in the gym. Since we have been led to understand that a copious supply of towels exists, some revision in the method of distribution would improve matters a great deal.

With the rapid approach of Spring it is hoped that the overgrown condition of the shrubbery at the entrance to Salisbury Laboratories, which has existed for about six months, will attract the attention of a responsible party. Numerous students have threatened to remedy this situation but such a solution would undoubtedly be hard on the shrubbery.

Our compliments are extended to Prof. Herbert F. Taylor and Stephen D. Donahue for their fine work with the new W. P. I. News Bureau; to Hollis Wright of WTAG for his excellent broadcasts of the basketball games; to Bill Lynch for his condensed basketball band and to "Doc" Carpenter, and any others concerned, who made it possible for us to "drag" to the basketball games at a reduced rate.

Thus we turn over to the succeeding staff the trials and tribulations of publishing the campus weekly in an engineering college. It has been said that you will never discover how many

Are You Emotionally Mature?

[Ed. Note: The following article is a condensation of a recent talk by Pres. Meader of Russell Sage College.]

To be happy and successful in life, one must be completely mature—physically, mentally, emotionally—and our college, if it is to meet successfully its inherent obligation to each of you, must further in every possible manner this three-way development.

Through examinations, exercise, diet and sports, it is providing for your physical development. Through lectures, class discussion, laboratory experiments and library study, it is providing for your mental development. But what is being done to help you mature emotionally?

Unless your emotional growth keeps pace with the other two, you will never become the happy, successful and popular person you might have been. In an effort to help you determine whether your emotional development is keeping pace with your physical and mental development I am going to give you an examination this morning.

I shall start with one general question: How old are you emotionally?

Emotional maturity has little or no relationship to chronological age. Some people are emotionally immature at 60 (we call them delayed adolescents), while others are emotionally matured at 16. It has been said that we are as old as our arteries. I believe it is a true statement to say that we are as old as our emotional maturity.

Answers to the following nine criteria will aid in answering this general question.

1. Do you enjoy making a noise for its own sake? And do you use this device to attract attention to yourself?
2. Are you neat and orderly? Or do you surround yourself with a messy and mussy confusion?
3. Do you live only in the present?

bumps there are in the road until you take hold of the wheel and start to drive: we can heartily vouch for this statement. To say the least, however, working on the NEWS has been a valuable experience.

Tech Glee Club in Combined Concert At Framingham

Boyntonians Donate Services For Dancing After Program

Friday evening, March 3, the Worcester Tech Glee Club joined the glee clubs of Framingham State Teachers College, Worcester State Teachers College and Clark University to present a concert at the Dennison Memorial Hall at Framingham.

The combined glee clubs opened the program with Bach's "Now Thank We All Our God" and "May No Rash Intruder" by Handel. The Worcester State Teachers College singers followed with "Seraphic Song" by Rubinstein, and Brahms' "From Yon Hills" and "Atremer on the Branches." The Clark Glee Club took the stage to sing "The Heavens Proclaim Him" by Beethoven, the familiar "Ave Maria" by Ansdelt and Schumann's "Die Lotusblume" and "Minnesingers." The Clark Madrigal Group sang several spirited selections, most of which were old English songs.

Following the intermission the four glee clubs joined to sing a group of folk songs from England, Germany, and Scotland.

The Framingham Glee Club was next on the program with "The Arkansas Traveler" and Schubert's "Ave Maria" and Brahms' "Liederslied."

The Worcester Tech singers gave for their part of the program Bartholomew's "Keep in the Middle of the Road" and "Dixie." The program was brought to a close with the combined glee clubs singing Gilbert and Sullivan's "March of Peers," "Hail Poetry" and the Finale from "Iolanthe."

Or have you a well-formulated plan for the future?

4. Are you credulous and gullible? Or are you discriminating and critical in your thinking and reasoning?
5. What do you consider funny?
6. What do you consider hateful?
7. Have you an accurate knowledge of your strengths and weaknesses?
8. My eighth criterion is self-control.
9. My last criterion of emotional maturity is unselfishness.

And now in conclusion, let us return to my first question: How old are you emotionally? To what extent is your behavior still characteristic of an infant? Are you progressing month by month toward emotional adulthood?

If you will use these nine criteria honestly and fearlessly, I am sure that each student can answer these questions for himself.

To get the most out of life and to contribute the most to life, you must be your age physically, mentally and emotionally.

You compliment your friends when you take them to

Junior Prom Com. Almost Ready For Band Announcem't

Edward E. Hafey of Hartford, Conn., chairman of the Junior Prom Committee and Frank B. Stevenson of North Adams, his right hand man, have been engaged for the last two months in big business dickering with all the bookers of name bands in New England, New York and points west. It is expected that negotiations will be consummated during this week and that the announcement as to who will swing for the dance of the year will be made not later than next week.

The Bancroft Hotel Ball Room has been engaged for the evening of Friday, April 14, so all you boys start saving your five-spots and see your nearest committeeman for tickets. A complete committee list and other particulars will be out next week.

Annual Tech Banquet Set For April 11

(Continued from Page 1, Col. 3)

For the benefit of the uninitiated, the Annual Tech Banquet is one of the oldest customs of Tech. Its purpose is primarily to provide an opportunity for the entire college to get together and talk things over. An excellent dinner and an interesting program are two reasons for the success of the banquet. Many interesting stories are told by faculty members in regard to the trials and tribulations of Tech in its earlier days. The Tech Banquet is one function of college life that no student of Tech should permit himself to miss.

you're on...

... this telephone idea can help you

WHILE you're in college, you're on the consumer side of the fence. There you'll find the "Where to Buy It" section of your Telephone Directory a quick, easy way to discover who sells what you want.

After graduation, you may be on the other side of the fence, too—the seller's side. As a manufacturer or distributor of an advertised product you will find classified telephone directory listings a most effective and economical way to direct buyers to the dealers handling your product.

This directory service, tying up the national advertiser with the local distributor of his product, is just one of many Bell System ideas that help to increase the value of your telephone.

A telephone call home would be appreciated. Rates to most points are lowest any time after 7 P. M. and all day Sunday.

Grant's "Seals" Take Final Meet Against Conn. State, 41-34

College Record Set in 400 Relay; Love is Good; Riddick Still Superb

Frank Grant's trained "seals" closed their scheduled season Saturday at Storrs, Connecticut, by giving the Nutmeggers the short end of a 41-34 final score. The State swimmers were quite surprised, for they were conceded to be the stronger team.

Tech had no trouble in scoring first, when the combination of Plutukis, Hopkins, and Riddick captured the 300 yard medley relay in the fast time of 3:20.1. On the breast stroke leg of the medley, "Hawser" Hopkins left State's Brundage eight yards behind, while Riddick and Plutukis swam easily, saving their energy for their specialty event.

The 220 yard freestyle event did not go so well with Tech, and Sarra and Ceskavich sprinted into the lead to finish ahead of Muir and Chamberlain of Tech. However, in the 60 yard dash Love and Ingham worked the same trick that they had used to advantage at Trinity. Both men hung back until the final lap of the race, and then, since both State men were breathing on the blind side and could not watch, sprinted out to take first and second places respectively. The judges had difficulty convincing the State men that they had actually lost.

In the 100 yard freestyle Captain Tommy Love tried the same strategy, but unfortunately State's Sarra was watching and was able to nose out Love by two yards. Burr of State was third.

The 150 yard backstroke proved a big disappointment to Tech, for Joe Plutukis led the field through almost the whole distance, but was finally overhauled and passed by State's Chamberlain and Goldfarb. The chief trouble lay in the fact that Joe did not seem to hit his turns correctly, although he outswam the State men.

"Hawser" Hopkins also experienced a heartbreaker in the 200 yard breast stroke event when he led the field for 180 yards only to be beaten in the final lap by a matter of inches. The winner was Brundage whom Hopkins had earlier beaten in the medley event. No small amount of admiration is due to Chamberlain of State who swam two gruelling events in succession, with no pause between. Chamberlain won the 150 yard backstroke event, and with no rest went on to place third in the 200 yard breast stroke event.

Divers Kennedy and Ingham contributed their share toward the winning of the meet by doing an excellent job in their event to place first and second respectively. Then both men went on to swim, as they had at Trinity, fast legs in the 400 yard relay. Score for Kennedy: 95.27, Ingham: 86.47.

Bill Riddick irritated the starter in the 440 yard freestyle event by pausing every other lap to carry on a conversation with Tommy Love, or to inquire of the timer what lap it was. In spite of this seeming unorthodox method of winning a swimming race, he finished twenty yards ahead of the field, and came within 0.6 seconds of the college record for that distance. The gallery enjoyed the sport as much as the swimmers.

As the final event was announced, it was found that the score was tied and that the winning of the relay would decide the winning of the meet. The actual swimming of the relay raised Frank's blood pressure several m/m. (Continued on Page 4, Col. 1)

Frosh Lose Last Swim Meet to Worc. Academy 42-24

Wynkoop High Scorer For Yearlings, Sets Record in 40

Although the Tech freshmen natators were defeated 42-24 in a return meet with Worcester Academy last Wednesday in the Fuller Pool, they chalked up two new records and a final tally that was not quite as decisive as it was a month ago. Ray Wynkoop was high scorer for the yearlings taking two firsts and swimming an excellent leg on the winning medley team.

From the result of the 40 yard freestyle event, it appears that Bill Riddick isn't the only record breaker this year because Wynkoop, leading from the start, finished a yard ahead of Richards, setting a new Freshman record of 19 4/5 seconds. Jackson of Tech was a close third.

Ed Hebditch found competition exceedingly tough in the 100 yard breaststroke when Feldman of the Academy butterflied his way to an eight yard lead in the very fast time of 1:09 1/5, forcing Hebditch into second while Lawrence scored in third place. The 200 yard freestyle was a run-away for Jack Ryan, finishing two laps ahead of Crane, his teammate, and Franklin, who put up a good fight for second place but lost out in the last two laps and had to be satisfied with third.

Bill Ryan, following in his brother's victorious wake, led Fred Shippee down the homestretch of the 100 yard backstroke event by a ten foot margin, forcing Shippee into second. Wynkoop, in another superb demonstration of his power, hit his stride in the 100 yard freestyle and easily made away with the laurels while Nelson and Sylvia took second and third for the Academy. The competition for third place in this event was the closest of the day and Jackson, neck and neck with Sylvia, all but took it.

The combination of Shippee, Hebditch and Wynkoop gave the visitors their third set-back in the 120 yard medley relay. Shippee, starting off, gained slightly while Hebditch and Wynkoop both made gains to set a new freshman record of 1:11 3/5. The 160 yard freestyle relay, however, was a different story.

Summary:

40-yd. freestyle: Wynkoop (Tech), Richards (Academy), Jackson (T). Time: 19.8.

100-yd. breaststroke: Feldman (A), Hebditch (T), Lawrence (A). Time: 1:09.2.

200-yd. freestyle: Ryan (A), Crane (A), Franklin (T). Time: 2:01.

100-yd. backstroke: W. Ryan (A), Shippee (T), Wiskmewski (A). Time: 1:05.6.

100-yd. freestyle: Wynkoop (T), Nelson (A), Sylvia (A). Time: 57.2.

120-yd. medley relay: Tech, Shippee, Hebditch, Wynkoop. Time: 1:11.6.

160-yd. freestyle relay: Academy, W. Ryan, Richards, Widdison, Wilson. Time: 1:21.6.

Tech Takes Tufts In Final Home Game

(Continued from Page 1, Col. 1)

long shots before a substitute was sent in for Weldon. However, except for Weldon, the Tufts men were held to one or two baskets apiece during the first half, while Davie McEwan and Jack Rushton each made three baskets and Ray Schlora and Johnny Wells had two apiece. Up until the half-way point, the Engineers seemed to be definitely the best team, and as the period ended they had a comfortable lead of ten points, the score being 36-26.

The second half, however, was an entirely different story. The Jumbos kept Tech from increasing their lead, and for the first ten minutes both teams were playing flawless basketball. But with the score at 48-35 for Tech, and with ten minutes to play, Tufts started rolling. Weldon began sinking

Ray Schlora of Worcester, above, is one of the most improved players on the varsity basketball squad. His guarding in recent games has been sensational.

his long shots again and the highly feted Tibbs, whom Schlora and Wells had held in check so far, suddenly cut loose. Every ball he threw at the backboard was good for a basket, and within two minutes they brought the score up to 50-49. Tech's lone basket being one of the five made in this half by big John Rushton who was as hot as Forkey was the first half. However, at this point, acting-captain McEwan took a time-out, giving Tech's five iron-men a much needed rest. They played the entire game without a substitution, and the pressure was beginning to tell on them. When play was resumed, with eight minutes to go, the Engineers started clicking again. Ray Schlora led the rally, scoring from under the basket. Wells made two baskets in a row, and McEwan cashed in on a free try. Pecheux of Tufts then got loose for a tally, but Rushton immediately scored

Connecticut State Hands Tech Third Heart-breaking Loss of Year

Sport Sidelights

Again this column must mention Rhode Island State's highly touted basketball team. With the postponed game coming up this Tuesday in Kingston, the complexion of the situation has changed radically. On Feb. 14, when we were to play them, they were unbeaten and looked good to stay that way. Then Tufts, Conn. State, and Brown were victorious as R. I. lost three in a row. Tufts, paced by remarkable Tibbs with 37 points won by a comfortable margin. Conn. State did also. Then we beat Tufts Saturday and last Wednesday lost to Conn. State by 1 point. Tibbs of Tufts thinks Tech has the edge on R. I. . . . Riddick and Love of the swimming team travel down to Wesleyan in Middletown, Conn., next Saturday for the N. E. Intercollegiate. They'll be in fast company. . . . This month sees a lull in sports, with nothing doing until track meets start outside. . . . Baseball starts a little earlier, with an 11-game schedule. . . . Three seniors see service for Tech for the last time this week as basketball players: Dave McEwan, Jack Rushton, and Al Raslavsky. Dave will be active this spring as captain-manager of golf, and Jack will probably be holding down the first sack on the baseball nine. Al, whose ankle still is rather painful would like to get in for some more play before the last basketball game. If the ankle mends, he might get in for a while in the R. P. I. game. And he'll no doubt be out pitching again this spring. . . . Trade won its 47th straight as it beat Tech J. V.'s Saturday night. . . . Notice that: Rhode Island took Providence College Saturday 86-60; Brown, who was leading Tech in New England rating, lost to Dartmouth Saturday 52-30; Trinity beat Rensselaer, 56-39; Conn. State took Northeastern, 48-38. . . . Tech's swimmers made a new college record of 3:55.5 in the relay Saturday at Conn. State in Storrs, Connecticut.

again for Tech. Weldon sunk one from the middle of the floor, but it was ruled illegal as Tibbs had touched the net as the ball dropped through. McEwan then broke loose, taking the ball down the floor alone to make Tech's last basket of the evening. Weldon sunk a free try just before the game ended, making the final score 61-52.

Forkey, whose long shots were deadly, was high scorer for Tech, while Weldon was high man for the visitors, each totalling 19 points. Rushton and McEwan, turning in their last performances on Tech's basketball floor, really gave the Worcester fans something to remember them by. Rushton ran up an impressive total of 17 points, and although McEwan found his height somewhat of a handicap under the basket, his pass work and brilliant interceptions marked him as the flashiest player on the floor. Schlora and Wells, while not running up large individual scores, came through when Tech needed the points most, and Coach Bigler has them to thank for holding Tibbs, one of New England's high scorers, to 17 points.

McEwan Tops Tech Scorers With 18 Points; But Ras is Sorely Missed

The Worcester Tech basketball team's string of victories was cracked last Wednesday night at Storrs, Connecticut, when the Nutmeggers eked out a 49-48 victory. Tech's third one-point loss of the season.

The Biglermen started off as though they meant to cinch their recently acquired New England leadership, and led 14-8 at the end of the first ten minutes. From there the Boynton Hillers' attack bogged down, and the Conn. State forward line popped throw after throw to lead 22-20 at the half.

At the opening of the second half Peterson and Donnelly, the Aggies two high scoring forwards put on a race to shoot their team into a ten-point lead. From that point Conn. State led until less than five minutes remained in the final period when Dave McEwan and Long John Wells each sank field goals to give Tech the edge 48-47.

With less than one-half minute to go Tech froze the ball, but an interception by Brooks, State's center, and a pass to Peterson gained the basket that gave the home team the victory.

Tech started off poorly by losing the ball at the outset of the game on a bad pass. A poor shot by Conn. State gave Tech the ball again however, and a series of passes worked it in where Acting Captain Dave McEwan sank the shot which gave his team an early lead. By the end of the first quarter of the game Tech had drawn ahead by a good margin. Close guarding of the State forwards had unfortunately cost Ray Schlora three fouls and he was withdrawn, to be replaced by Franny Oneglia.

In the second quarter the Tech attack bogged down, Wells failing to get his usual quota of under-the-basket shots, and McEwan doing all the Tech scoring. In the meantime Peterson, Donnelly, and Yusievicz scored in that order to give their team a two-point lead at the half.

Early in the second half Conn. State continued its spurt to lead 30-22 shortly after the half started. In the meantime the State gymnasium, jammed with enough people to make "Doc" Carpenter turn green with envy, resounded with the peppy cheers of its male and female supporters until the girders threatened to break. The Nutmeggers responded nobly to their supporters' cheers and played with a speed that couldn't last. After a few minutes, Brooks, the opponents' hefty center had to be replaced because of exhaustion.

At this point Tech rallied, Wells and Rushton found the range to drop several baskets apiece while Davie McEwan sank five goals. With four minutes left to go Tech lagged 47-44. As McEwan dribbled under the basket he was fouled, but made good on the free try. Ray Forkey followed with another free point. As the minutes flew, John Wells came through to sink the last Tech score and give Tech a 48-47 lead. The lead was short-lived, as in the next minute Peterson, the opposing ace, tallied the last score with thirty seconds to go, final score 49-48.

The Tech defense was the worst it has been this year. Handicapped by the loss of Captain Al Raslavsky, and with Wells and McEwan beset with injuries and illness, the Tech attack also sputtered. Dave McEwan was in- (Continued on Page 4, Col. 5)

Tech Whips Tufts

(Continued from Page 3, Col. 4)

Next Wednesday Tech goes down to Kingston to meet Rhode Island State. This is the team that the Engineers have been pointing for all season, and as Tufts took over the Rams, Tech's team seems to have a real chance of touching off Coach Keaney's explosive temper for the second time this college year. Captain Al Raslavsky, who was Tech's high scorer until his injury two weeks ago, will be back in the lineup by Tuesday, thus boosting W. P. I.'s chances considerably. Let's get every one down there and cheer the team through to the New England championship.

In the Jay-Vee game, Dick Munson's charges lost to a superior Trade School team which annexed its 47th consecutive victory. The Tech men outplayed and outsmarted the high schoolers for the first quarter, but when Trade got started they put on one of the smoothest exhibitions of ball-handling, passing, and shooting ever seen in a Jay-Vee game here. The final score was 57-33.

Scores:

and put the whole team on the edge of their seats. Kennedy, as lead off man, lost six yards on his 100 yard trip, and Ingham, despite several detours enroute, was able to make up all but two feet of the distance. Love took over and sprinted through his 100 yards to give Riddick one yard lead over Sarrat. Riddick opened this gap slightly and finally touched, in 3 mins., 55.5 secs., a new college record for this event. Final score: Tech 41, Conn. State 34.

Summary:

300 yard Medley Relay: Tech; Platukis, Hopkins, Riddick. Time: 3:20.1.
220 Yard Freestyle: Sarrat (C), Ceskavich (C), F. Chamberlain (W). Time 2:34.7.

80 yard Freestyle: Love (W), Ingham (W), Burr (C). Time: 31.8.

100 yard Freestyle: Sarrat (C), Love (W), Burr (C). Time: 58.2.

150 yard Backstroke: R. Chamberlain (C), Goldfarb (C), Platukis (W). Time: 1:50.2.

200 yard Breaststroke: Brundage (C), Hopkins (W), R. Chamberlain (C). Time: 2:46.9.

Diving: Kennedy (W), Ingham (W), Litvin (C). Score: 95.27.

440 yard Freestyle: Riddick (W), Scates (C), Ceskavich (C). Time: 5:35.6.

400 yard Relay: Tech; Kennedy, Ingham, Love, Riddick. Time: 3:55.5. A new College record.

dividual star and high scorer of the game with 18 points. Ray Schlora netted nine points for the short time he played, but was hampered by fouls. The Conn. State total of 49 points was fairly evenly divided among Peterson, Donnelly, and Yusiewicz; who netted 17, 16, and 14 points respectively. Their only other scorer was Captain Frank Kosikowsky who garnered two points.
